TOP 10 ENVIRONMENTAL PRIORITIES OF THE PORT SECTOR OVER THE YEARS (1996, 2013, 2023)

1996	2013	2023
Port development (water related)	Air quality	Climate change
Water quality	Garbage /port waste	Air quality
Dredging disposal	Energy consumption	Energy efficiency
Dredging operations	Noise	Noise
Dust	Ship waste	Water quality
Port development (land related)	Relationship with local community	Ship waste
Contaminated land	Dredging operations	Relationship with local community
Habitat loss/degradation	Dust	Port development (land related)
Traffic volume	Port development (land related)	Garbage /port waste
Industrial effluent	Water quality	Port development (water related)
